3. No unloadings were handled at the Nathansow-Lord railroad station between 18 and 22 April.

\* [ ] Comment. The train was previously reported by another source. See [ ]

\*\* [ ] Comment. Except for train shipment-record No 75033, all trains were reported by another source [ ]

[ ] It is believed that, between 15 and 23 April, 13 trains with elements of the 6th Artillery Div from Nathansow were dispatched to Altengrabow. Source's report of 67 x 160 mm mortars is of interest as this exceeds the 7/8 of the 35th (?) Mort Brig. According to 7/8, this brigade would probably have 64 mortars. However, the present report indicates that the brigade is apparently equipped exclusively with 160-mm mortars. As it is possible that the mortar brigade may have fewer weapons than is provided by 7/8, several mortars possibly belong to the 11th (?) How Artillery Brig in the Pioneer Kaserne where a mortar battalion is believed to be stationed.
